

- Increased help for members from officers
 - Less website coding per meeting (1 hour)
 - More teaching focused
 - Officers will make up for the competition in their free time.
 - Members will not be expected to make pull requests
 - No breakout rooms
 - Cameras on
- Introducing TI Challenge
 - 1 hour per meeting work time Tuesday & Thursday
 - 500 word report on iphone 6s home button + touch id.
 - Each member researches the parts e.g. microchips, mosfets, etc.
 - Be very detailed and specific, no ambiguous language.
 - Google is your best friend. We don't know how it works either.
 - Don't worry about introduction, conclusion, etc. We will patch it up.
 - 250 - 500 words max (1 - 2 full pages MLA) or 1 - 2 page MLA list of a process the components take part in.
 - May work in groups.
 - Submit your research by the end of the meeting next Tuesday (12/1) to be edited and merged with others for a final submission by officers to the competition by Friday (12/4). ***500pts*** based on completion. No late submissions.
 - Might make meetings on Saturday & Sunday if needed to help & encourage work.
 - Yassin will upload pictures of the parts (has an unused iPhone 6s)
